VALUABLE LANDS-FOR SALE.

RESPFCTFULLY DEDICATED TO THE LEGISLATURE OF VIRGINIA

In the year 1795, the legiflature adopted an act for collecting and publishing all laws relative to *laws*, which had been paffed from the furt fettlement of the colony to the year 1793; and Meffre, G. Wythe, J. Brown, J. Marthall, B. Wahington, and J. Witcham were ap-pointed a committee for the execution of this object.

pointed a committee our the execution of this object. of the 20th, Edifford of Tohic applies of the 20th, more complexit this could be elfswhere procured," he retuined the fol-lowing anferer, in which he recommended the publication of all the laws which had been enacled in Virginia...-The committee, immediately "declined entering upon" the objects of their committeen until the fenit-ments of the legislature upon this more cri-lation of 1725.

larged proportion could be known. a 1979, the legilitature repeated their first law of the second second second second second second the following letter to their conditations. The following letter to their conditations. The following letter to their conditations before the feature, they introduced forms and the following second second second second pleafor the feature, they introduced forms and the second second second second second before the feature, they introduced forms and the second second second second second the second to the second second second second second second the second se

if prefen fleeps. The journals of the next effino of the legiflature are not before us; but it is almost reduced to a certainty, that *idey* never reviewel it. But will the time of its refurredion never ar-rive? Will the legiflature force different due advantages of collecting and perpetuating our legiflative records? Such of the property of individuals refut up-on what ne called private and of algorithms. It such cours have a such a such as a such as bother fubjects, embraced by the for private adva, which polterity may thank us for preferring. The hidtory of every country is oblicure, unless the taws of a public nature that are in force at different themses, and even many of the private adva, there will be found but few of the general have, that were in force case hundled years.

re will be round but few of the general

many influctive and amufing matters y then be inerticevable loft to us, if Mr. ferfon's collection be fuffered to moulder odust 1 But a few years more, and most thefe valuable monuments may be illegi-

of thefe valuable monuments may be illegi-ble, the legitlance take from fors to car-cle then the legitlance take from polition car-dowed by the experiment of Mr. Jefferfon and stopped by all the zeal of Mr. Wythe. There can be killed outh, that a fubforpio-malimot equal to the expense, might be col-lected, or to nearly for, as to render the re-final amount. Meantime it may be expect-ed, that other individuals who have the means of extending this collection, will fail in one forst to feel the code of their country. Their papters might be preferred by trainint-fock as the Divary of Mr. Jefferfon or the Council chamber.

ITTACT OF ALTTIER ROOT THOMAS JET. INTACT OF ALTTIER ROOT THOMAS JET. INTO ALTTIER ROOT THOMAS JET. INT

I'r meiñs of preferving thofe remains of our laws now under confideration, that is, a multiplica-tion of princed copies. I thick therefore that there fhould be printed at the public expense, an edition of all the laws error paired by "a roo-by phould be depolited in every public libers" in the flate, and fome perhaps in the most dif-tinguiled public liberarie of Burope, and that the refi fhould be fold to individual toward by or the flate, and fome perhaps in the most dif-tinguiled public liberarie of Burope, and that the refi fhould be fold to individual toward by or i. The MSS. would probably furnifu-matter for ogg printed volume in folio and would comprehend all the laws from 1624, to 101, which period includes Pervis-ter of the set of the set of the set of the set work. The MSS. would probably furnifu-itate, for ogg printed volume in folio and the set of the set of the set of the set work. The MSS. would probably furnifu-ter set of the set work, two volumes, and comprehends all the laws which can be pleaned up, from the revisit, to fapply the chain between 1710 and 1714, with thole from 1705, to the close of who with to paffs as many of them as can be of for find the set from 1705, to the close of who with the paffs and many of them as can be of for find, to with pervis, and thole of 1720, trans, 1789, 1789, the set, and lof them pof-fof find one half of what they with. What would be the expense of what they with. What would be the expense of what would be refindered by the more time in making myfelf acquaring latifies of promate MSA which would employ which expense about a fourth fhould be added place.
